Mr. Car Owner-

Winter overhauling is now in order. If you intend running the same car next year

It Should be Put in Shape During the Winter Months

In the spring there is always a rush and valuable time is lost to the motorists who have neglected their winter overhauling or repairs.

If you are intending to sell or trade in your old car it is a great consideration to the present day used-car buyer if you can show him that the machine is in first-class condition.

Yours for Service,

And Let Us Do The Worrying

Why worry about your Christmas Cake and run the risk in basing it, etc., when you can buy one from us ready to use, either iced or plain.

We have sold fruit cakes to a number of our customers in the last three years who thought it had to be homemade from the old lamily recipe or it wain't as good, but that day is past.

Not a customer, to our knowledge, that has used our Christmas Cake has gone back to making it.

You may possibly make them as good, but you can't make them any better.

INIT by unit, and feature by feature, a comparison shows the Gray-Dort to be bigger or stronger or better than other light cars. The motor is bigger, with cooling system to match; 40-pound crankshaft; three-ring pistons; Westinghouse starting and lighting; big axles; long springs; deep upholstery; hand-tailored top; side curtains opening with the doors; Thermoid brake-linings. Any man who will take the trouble to measure and weigh and test the units of light cars will be able to see and feel the value which is in the Gray-Dort.

This value has made sales so rapid that you should see the Gray-Dort dealer at once to be sure of securing your car.

Enter a new leader-the McLaughlin Sedan.

The years have built the foundation of this car. The graceful sweeping lines are pleasing. The roominess, smooth riding and attractive appointments afford maximum motoring satisfaction.

More than the leader of a day, McLaughlin has been the dominating car over a period of years. Not in the opinion of a few—but of thousands. For of McLaughlin many thousands more

travel the roads of Can-ada than any other of the better-class cars.

So the new car must succeed to the title earned through the preponderant preference of the people of "Canada's Standard Car."

Especially attractive are the new closed bodies not only because of their added comfort, but because they are now decidedly the vogue for both winter and summer driving.

Mr. Car Owner--

Winter overhauling is now in order. If you intend running the same car next year

It Should be Put in Shape During the Winter Months

In the spring there is always a rush and valuable time is lost to the motorists who have neglected their winter overhauling or repairs.

If you are intending to sell or trade in your old car it is a great consideration to the present day used-car buyer if you can show him that the machine is in first-class condition.

Yours for Service.

BOVRIL never Profiteered

WHILE many foods have doubled in price, Bovril is the same price in Canada to-day as in 1914.

Yet the opportunities for profit-eering, if Bovril Limited fiad chosen to take them, were almost unlimited. Double the price could easily have been obtained for Bovril, because there is no real substitute for Bovril.

real substitute for Bovril.

But the proprietors of Bovril, realising their responsibilities in controlling a food essential to the well being of the nation, kept the price of Bovril down. By foresight in the provision of raw material, and rigid economy in production, they were and still are able to supply Bovril in Canada at the same price as before the Wan. It is no slight reward to feet that in this way men, women and children have been maintained in health or helped back to it through Bovril.

There was no increase in the price of Bovril during the War

MACDONALD'S

MACDONALD'S "BRIER" has become a Canadian institution. Smoked by the men who made history. In the bush, on the trail, in mining camps, prospectors' hits, factory yards, on trains, steamships, in the luxurious homes and downtown clubs of our Canadian cities Macdonald's has always been recognized as the smoke.

¶ MACDONALD'S CUT "BRIER"—the same tobacco but in new for m—maintains every Macdonald tradition since 1858, and gives to smokers—more tobacco for the money.

OFFICERS OF ROYAL

BLACK PRECEPTORY

A large stal representative precting
of 16/94 Ulack Preceptory No. 623
was field in the Orange Hall on Friday evening Dec. 10, being the annual
meeting for the election of officers for
the enuing year. The following are
the officer-solven.

Judathent has been given by His Honor, Judge Dereche, in an inter-pleader i-sue tract before him on No-

My Nerves Were So Bad at Times that I Could Not Keep Back the Tears

HEN the nerves collapse there is such a feeling of utter helplessness that strong men, as well as women, cannot do otherwise than weep.

The average physician is sadly at a loss when consulted by a nervous patient, and we have from such an eminent authority as Dr. Richard Cabot the statement that half the ordinary practitioners work is with derangements of the nerves.

Think of the headaches, backaches, neuralgic and scialic pains, the steeplessness, indigestion and tired, depressed feetings that give the dectores their said research you will realize the truth of this statement of Dr. Cabot.

The conditions under which people have lived during the last few years has meant enormous strain on the nervous system. The fear, the worry, the anxiety have wasted nerve force at such an enormous raic that persons of nervous temperament have been unable to stand the strain—the result is nervous collapse.

Recovery must necessarily be slow, and the average doctor, accustomed as he is to treating symptoms only, finds difficulty in bringing shout restoration, and often fails to realize the helpiess and discour-aged cognition of his patient.

Because Dr. Chase's Nervy Food sup-plies in condensed and easily assimilated form the vitel substances with which Nature rebuilds the starved and wasted nerve cells it stands out jo-day as the greatest of nerve restoratives.

A careful reading of this letter will give you an idea of just what you may ex-pect from the use of this treatment, be-cause it describes an average case:

MACDONALD'S CUT BRIER MACDONALD'S "BRIER" has become a Canadian institution. Smoked by the

men who made history. In the bush, on the trail, in mining camps, prospectors' huls, factory yards, on trains, steamships, in the luxurious homes and downtown clubs of our Canadian cities-Macdonald's has always been recognized as the smoke.

MACDONALD'S CUT "BRIER"—the same tobacco but in new form-maintains every Macdonald tradition since 1858, and gives to smokers-more tobacco for the money.

Luxury Taxes Abolished Means More Employment

REPRESENTATIONS BY MANUFACTURERS THAT LUXURY TAXES HANDICAPPED PRODUCTION LEADS GOVERN-MENT TO ABOLISH LUXURY TAXES ON ALL BUT A FAR ARTICLES—IMPETUS TO MANUFACTURING EXPECTED.

APTICES—INPETUS TO MANUFACTURING EXPECTED.

OTTAWA, Dec. 19.—All "Insury trace" imposed at the last so
sion of Parliament have been abolished with the exception of these a
splittoness and abcolect important medicated wines, patent and pypetury representants containing alcohol, time and fruit places, levels

toll.

The sales tax, collected from manufacturers, wherers, will, however, remain in full force.

MEANS MORE EMPLOYMENT.

The verious memployment timing in the principal reasons give by the Government for taking this step. Representations from all part of the country have been made to the offert that indexities suggested making the articles on which haven taxes were charged have al-come to a studefull, and that the removal of these taxes would are great deal more compleyment. Because the country of the text would are fixed deal more compleyment.

Derece the Tarist Commission manufacturers of expensive hoods and shoes, pignos, gramophoes, sporting goods to some extent, coarly famer, carpets and draperies, as well as cickling, always referred to that taxes as the chief reason for low production.

A keen eye will be kept on the situation to see whether more employment results from the abolition of the taxes.

ABANDONED FOREVER.

It is generally moderated that these taxes are being abandoned for ever, so far as the present Government is concrued, but if it proves that so move employment results from the abolition of any of these taxes than there is now, the exigencies of the debt situation and the large revouses needed to keep the contry's forefard affairs running may lead to a two more articles being added to the new "inzury" items still left under tax-

Winners in the **Dr. Chase Contest**

And interesting extracts from some of the 33r letters which came from every province of this great country. A splendid tribute to the enormous Popularity of Dr. Chase's Nerve Food

THE object of this competition was to find out which appeals most strongly to the great majority of people, "testimonial advertisements" or "human interest advertisements with illustrations and conversational style of copy.

Most of these letters were carefully thought out and will supply many new ideas as well as an abundance of evidence as to the strong regard in which Dr. Chase's Nerve Food is held by the women of Canada.

If we could send these letters to every home there would no longer be any question as to what treatment to buy when a restorative is needed for tired nerves and a run-down system. It would be Dr. Chase's Nerve Food every time.

It was no easy task to select the winners from the stack of letters received, but we have tried our best to do justice to everyone.

As it is our desire to make friends instead of losing them we hope there are not many who lost patience as did the writer of a postcard we received, and which reads:

Why not publish names of winners of your recent contest, as you advertised "names of winners will be published soon after close of contest." If it is almost a month since contest closed. What is have made a Don't you happen to have a friend or relative among the entire?

Krom A Past Friend.

Every contestant was advised by personal letter that the time of closing the contest had been extended to No-vember 20th. So we hope there were not many disappoint-ed as was our "Past Friend."

Miss Katarine C. McDeanid, Nurse, 16. Victoria Bio-Mancton, N.B., who did such heroic work in looking after tvictims of the railroad wrote bear Sackville recently, repos-some remarkably interesting cases in which Dr. Chase's Ner Food has been used with aphendid results. As a nurse MicDonald has an exceptional opportunity of witnessing the ri-torative influence of the irratiment.
